

PRESIDENT W. WEIHE. Life Sketch of the Man at the Head of the Amalgamated Association.

BORN OF POOR PARENTS. Compelled at the Tender Age of Eleven to Earn His Living.

GLASSWORKER AND IRON PUDDLER. One of the Original Members of the Great Iron Organization. FOR NINE YEARS ITS ABLE PRESIDENT.

William Weihe, the big, broad, conservative President of the Amalgamated Association, was born in 1845 in what is now the Thirteenth ward. His parents were German. When he was a child the family removed to the Southside, and there William was sent to the common schools. The parents were poor, and the young man was not given very much time to pick up book-learning. He got along pretty well in the spelling book and the readers, and secured a fair knowledge of arithmetic with a touch of grammar.

At the age of 11 he was compelled to go to work to aid in the maintenance of the family. He secured a place in Ihmsen's glass factory, and there worked, in one position and another, until he was 20 years old. At that age he decided to change his trade, and secured work in the great mill of Jones and Laughlin's at Brownstown. He worked first around the furnaces and rolls, and then entered the puddling department.

First in the Amalgamated. Mr. Weihe was one of the early members of the Amalgamated Association, entering it when it was organized in 1874. In the lodge chapters he soon secured recognition as a man of excellent judgment, whose advice was always valuable, and he rose rapidly in the association. From the occupancy of official positions in his local lodge, he became Secretary of the District Board, and held that position for one year. Then he was for five years a member of the Advisory Board, and there his work was so effective that in 1888 he was elected President of the Amalgamated Association. He has continuously held the office since that time. He has been compelled on account of the duties of that office occupying all his time to give up his trade. Feeling that he had fairly served his time at the head of the great iron and steel organization, and desiring to engage in private business, he at the recent June convention of the Association declined to be a candidate for re-election. This refusal was announced early in the sessions of the convention, but there was an almost unanimous demand made upon him by the delegates to withdraw his declination. This he refused to do, and accordingly Assistant President M. M. Garland was elected to the Presidency and will assume the office in October.

His Efficient Administration. In the highly responsible office of President Mr. Weihe has displayed remarkable executive ability. He has been careful and conservative in all his acts, and his word came to be unquestioned law because his associates and subordinates recognized his advice as being guided by wisdom and experience. He has seen the Amalgamated Association of Iron and Steel Workers grow into the most powerful labor organization in the world. He has guided it safely over the shoals of many difficulties and in the present crisis may be depended upon to give safe counsel. Whether his advice will prevail with the workmen in their present excited condition, remains to be seen.

Mr. Weihe is 6 feet 5 1/2 inches tall, and built broad and sturdy all the way up. He is a giant in body as well as in mind. He is of dark complexion, with a large, broad head and strong features. He is an agreeable and fluent talker when he wishes to speak, but fully appreciates the times when silence is golden. He is exceedingly popular with his brother officers, who look upon him as not only their superior, but their friend. In politics he is a Democrat.

GRIST OF THE MAGISTRATES. Summary of the Grindings in the Legal Mills for the Month of June. The reports of the police magistrates to the Mayor of the business at the police stations for the month of June were made up yesterday by Mayor's Clerk Ostermaier. The total arrests were 1,234, of which 371 were drunk, 223 disorderly conduct, 95 suspicious characters, 25 keeping disorderly houses and 28 visitors to the same. Of the total 307 were before Magistrate Gripp, 366 before McKenna, 105 before Leslie, 183 before Hyndman and 173 before Suceop; 417 of them paid fines, 176 went to jail, 223 to the workhouse, 5 to the reform school, 2 to the Poor Farm and 401 were discharged. The total amount of the fines amounted to \$5,029 35, of which \$1,390 10 was turned in by Magistrate Gripp, \$1,489 25 by McKenna, \$471 25 by Leslie, \$1,120 45 by Hyndman and \$559 30 by Suceop; \$22 was paid to special officers, leaving a balance of \$5,007 35 for the city.

Charged With Keeping a Speak-Easy. Before Alderman Braun, of Allegheny, Raymond Lucier prosecuted Hatti Baker for illegally selling liquor at 363 Rebecca street. Mrs. Baker was arrested and held in \$500 bail for a hearing at 7 o'clock this evening.

THAT STATION AT DALLAS. A Good Deal of Anxiety as to What the Railroad Company Will Do. "I was misquoted about the station at Dallas," said Michael Trump, of the Pennsylvania Railroad Company, to a reporter yesterday, referring to an article published in one of the Sunday papers. "I did not say the stations at Dallas and Torrens were to be consolidated. What I did say is that no action whatever has been taken. Our workmen began yesterday morning on a new station for Torrens, to be built on the southwest corner at the intersection with Fifth avenue. I will say, however, that Dallas station should be discontinued when the new station is completed."

"Why?" was asked. "Doesn't the business at Dallas warrant a station?" "I do not refer to that," said Mr. Trump. "In the first place, the station is at a dangerous point on account of the shifting. In the second place, it is not so very far to Fifth avenue."

This latter statement will very much astonish the good people of North and South Dallas. They never knew before that they were a race of pedestrians. The distance would be short for balloon navigation, perhaps, and that's about the only style of travel practicable to the people on the north side with streets as they have been the past few winters. The people believe there is enough patronage at Dallas to justify a new station right where the old one stands.

The residents of the district interested are charitable enough to believe that the citizen from the "boulevard" who, in the newspaper article referred to was made to say he favored a consolidation of the two stations, was also misquoted. They cannot understand why he should advocate a measure which would result in such great inconvenience to his neighbors. The people are on the anxious seat.

MUSIC FOR THE PEOPLE. A Concert That Everybody Can Understand and Hence Enjoy. The concert at Highland Park to-night will undoubtedly be an interesting one, as the programme is one that will be clearly understood by the masses. It will be given by the Guenther & Rohleder Orchestra, under the direction of Prof. Guenther, and he and his little daughter, Auguste, will render piccolo solos. The Amphion Quartet, Messrs. Henry Garding, first tenor, W. M. Stevenson, second tenor; John A. Hibbard, baritone, and Charles F. Harris, bass, will also take part.

The programme in detail is: 1. March, Musicians' National League. 2. College Overture. 3. The Owl and the Pussycat. De Koven. 4. Ambition Quartet. 5. Santiago Waltz. Corbin. 6. Selection, Princess. Othenbach. 7. Piccolo Duet. Bonquet. 8. Miss Auguste and William Guenther. 9. Overture, Marina. Fioletor. 10. Yachting Glee. Culbritton. 11. Kikeriki Galop. "Very funny". Fahrback.

ROACHES, bedbugs, etc., grow fat on insect powders, pastes, etc., but they never get away from Bugine. 25 cents.

JAMES GETTY & CO., 180 FIRST AVENUE, PITTSBURGH, PA. Have received a stock of the celebrated O. F. C. Whiskey, manufactured by the George T. Staggs Co., Frankfort, Ky., and which is becoming popular and is being so generally used by connoisseurs throughout the land. The special and distinctive qualities of this famous whiskey are its delicate flavor, absolute purity and great age. There is not a single bottle of O. F. C. which is not at least ten years old. This gives an added richness to its already superior flavor. It certainly is not surprising that it has become so popular and is being called for so generally by the better classes.

Delightful and Refreshing. Bottled at the Spring Rhenish Prussia.

Apollinaris. "THE QUEEN OF TABLE WATERS." "Its long continued and world-wide use attests its merit."

Rheumacura. SURE CURE FOR RHEUMATISM GOUT & LUMBAGO. Toronto, Can., June 20, 1892. Messrs. McKinnin & Chessman Mfg. Co., Pittsburg, Pa.: Gentlemen—My wife was laid up, perfectly helpless for three months with inflammatory rheumatism and rheumatic fever, and after three apparent improvements and as many relapses, doctor said he could do nothing more for her, she would never get well and might die at any moment. In this emergency I proposed to the nurse that your Rheumacura should be tried. Before the patient had taken it two full days we noticed an improvement in her condition, which continued steadily to improve for two months, during which time she took four and a half bottles of Rheumacura, and no other medicine whatever. She is now walking about and is well, but without your Rheumacura just at that crisis in her condition I fully believe she would have died. Yours sincerely, C. W. POSTLETHWAITE, Harbormaster. Price \$2 per bottle. For sale by all druggists. M'KINNIE & CHESSMAN MFG CO., 616 Penn. ave., Pittsburg, Pa. j78-7888.

KEEP THE SKIN COOL!! A great many people are annoyed by Itchy Skin, and attribute the cause to various skin diseases or stomach trouble. Most frequently the itchiness is caused by the clothes worn being washed with soap containing Free Alkali. This alkali, not being thoroughly rinsed out of the clothes, has a heating and irritating effect on the skin, as well as gradually destroying the clothes. WALKER'S FAMILY SOAP contains no Alkali; it is all Soap. Clothes washed with it last twice as long as those washed with ordinary soap, and do not heat and irritate the skin.
